

Assignment: Choose three colleges that interest you. One school is your DREAM school (no limits) and the other two can be chosen for any reason. You will compare and contrast all three schools after collecting the following data. This will help you to make an *informed* choice based on *intrinsic* and *extrinsic* values! Write up the data using a three-column chart. In conclusion write one to three paragraphs based on your final decision with supportive details. You will turn in the collected data and the final write-up. (50 pts)

Intrinsic and Extrinsic Values:

<p>Distance from home Financial availability Major choice and academic plan Size of classrooms/ school Access to professors Dorm and/or living situation Surrounding community Sports and programs</p>	<p>Social/ student life and organizations Availability to work SAT/ACT/GPA required or recommended Special admission requirements Climate Academic intensity Transportation</p>	<p>Prestige/ Alumni/ School Reputation Diversity of student population Out of State vs. In State 4-Year/ Community College/ Technical School Other Must Haves/ or Have Nots! (Special Needs or Wishes)</p>
